PROFILE

I am an enthusiastic person who is always seeking new opportunities to grow and evolve. What I really love is to be part of a multidisciplinary team that works in exciting and challenging software projects. I enjoy analysing, developing and implementing solutions as individual programmer but also contributing to bigger shared projects in benefit of the wider community.

EDUCATION

COMPUTER SCIENCES DEGREE

76-100th position in [ARWU](#) ranking

Studying 4th

Intending to graduate at the end of Summer 2020.

Intending to study a MSc (I.T. Engineering) and complete it at the end of Summer 2021.

Certificate in English B2. Certified by Certacles.

PROJECTS

COGNIMOBILE
APP

Present

DEGREE FINAL PROJECT

Automatic detection of cognitive functioning from daily user-mobile interactions
The goal of this project is to develop a mobile system to automatically track and potentially detect relevant decline points in the cognitive functioning of a given person, for example, a change in the level of attention or the memory capacity possibly reflecting some functional loss.

Tutor: Oresti Baños Legrán
